# Chuhuiv City Territorial Community

established in December 2020

6 villages joined the community

## Advantages of decentralization reform:

01

Agricultural lands became part of the community.

02

The quality of specialized healthcare improved. Healthcare services for residents of the villages became more accessible. *(implementation of telemedicine services)*

03

The standard of living of residents of the villages raised and municipal services became more accessible. *(administrative services, participatory budgeting, repair works in institutions located in villages etc)*

04

The quality of social services for residents of villages improved *(delivery of products to elderly and people with disabilities, hairdressing, basic computer skills training etc)*
