

FAGFORBUNDET

Taking care of vulnerable children during the corona crisis

Kjell Arne Lie; child welfare worker from Horten municipality

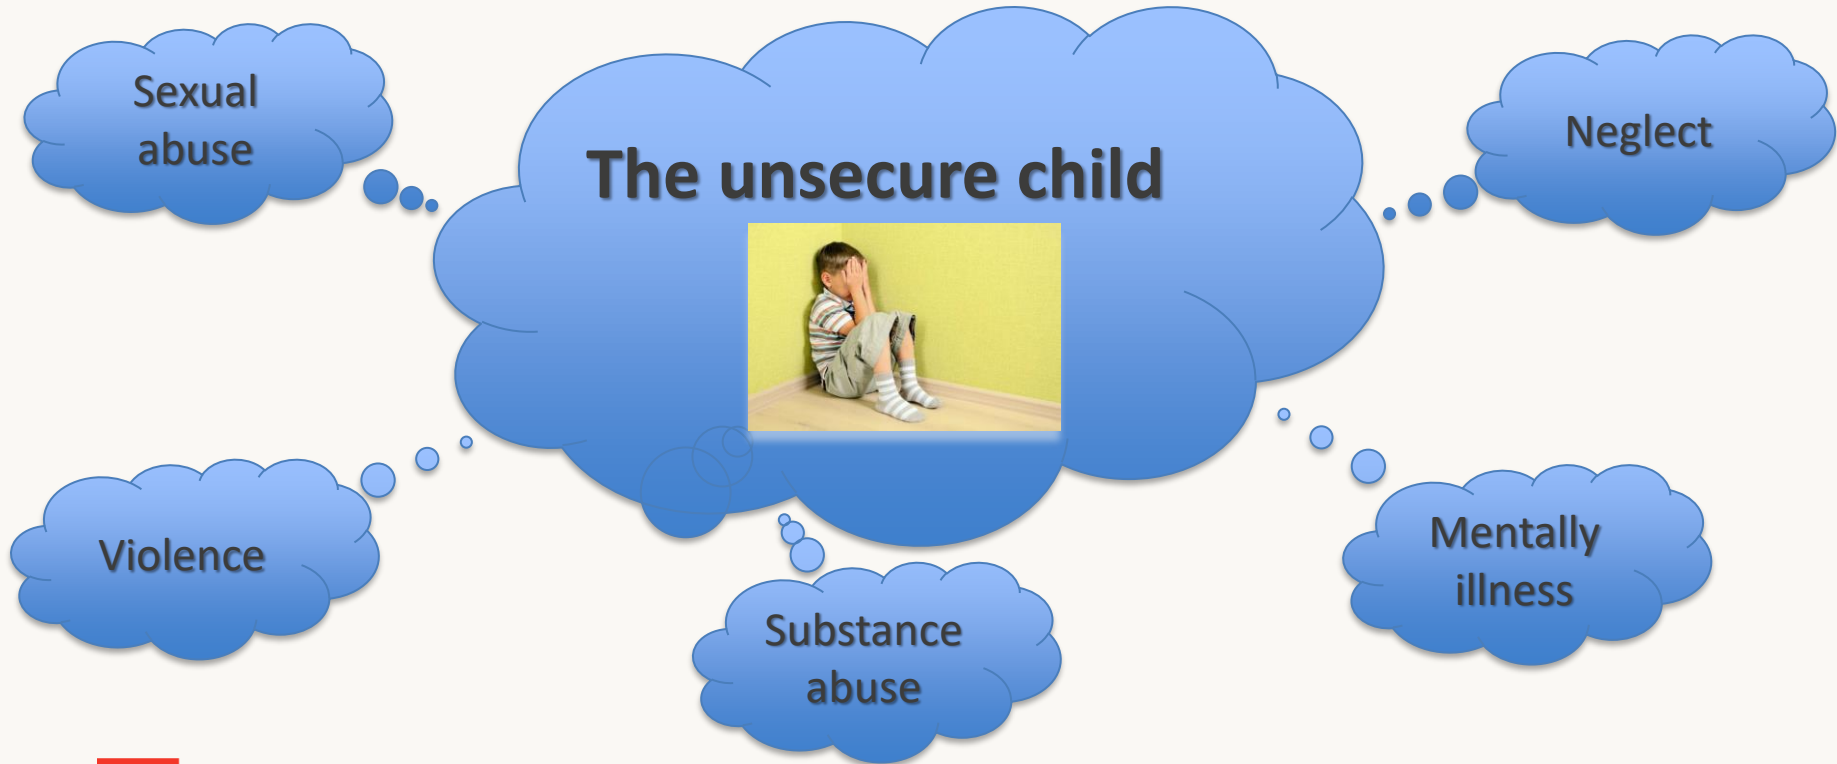

What am I going to present for you?

- Talk about the vulnerable children – who are they?
- Present for you how we work with these children on daily basis
- Present for you measures during the corona crise

The vulnerable children – who are they?

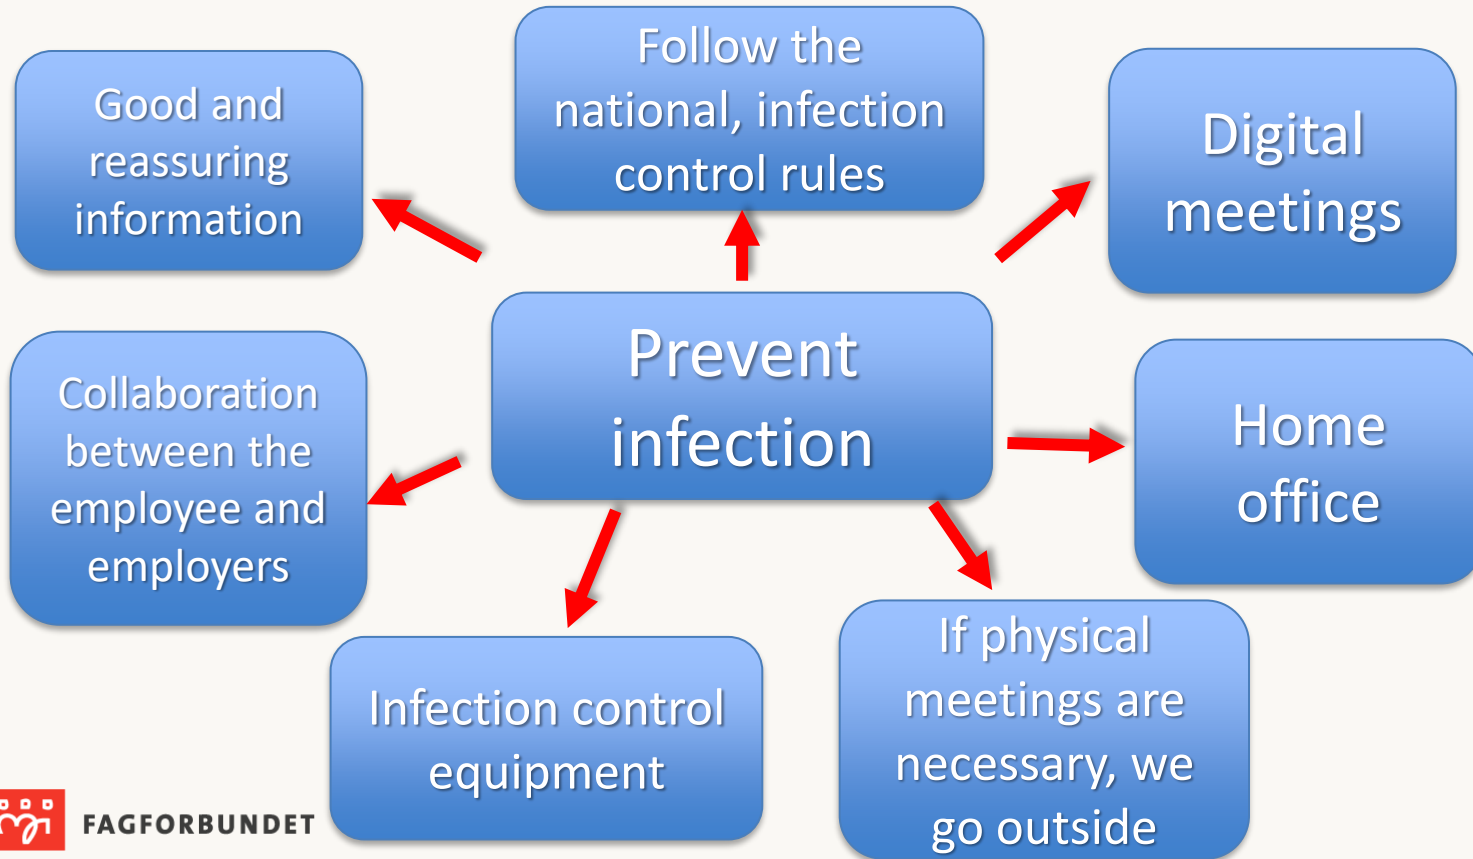

How do we deal with these children – with or without corona?

- We receive a worry or concern
- We examine care
- If the care is not good enough, we will give them help
- If its really bad, we take over the care

No difference?

What we do?
